Subject Index

Acetylcholine
  Loss of forebrain cholinergic neurons following fluid-percussion injury: implications for cognitive impairment in closed head injury, 496
Acoustic neuroma
  Hearing preservation in vestibular schwannoma surgery: what factors influence outcome? 191
  Proximal-to-distal facial amplitude ratios as predictors of facial nerve function after acoustic neuroma excision, 994
Acromegaly
  Acromegaly, diabetes insipidus, and visual loss caused by metastatic growth hormone–releasing hormone–producing malignant pancreatic endocrine tumor in the pituitary gland. Case report, 719
American Association of Neurological Surgeons
  Responding to change: the challenge of the 1990s. The 1995 presidential address, 771
Analgesia
  Evidence for segregated pain and temperature conduction within the spinothalamic tract, 8
Anastomosis
  Hemihypoglossal–facial nerve anastomosis. Letters, 762, 763
  Late patency of long saphenous vein bypass grafts to the anterior and posterior cerebral circulation, 806
Anatomical study
  The microsurgical anatomy of the jugular foramen, 903
Anesthesia
  Anesthetic-dependent pial arteriolar response to ethanol, 875
Aneurysm, *see also* Aneurysm, dissecting
  Aneurysm of a persistent primitive olfactory artery. Case report, 138
  Cerebral arterial aneurysm formation and rupture in 20,767 elderly patients: hypertension and other risk factors, 812
  Clinical study of enlarged infundibular dilations of the origin of the posterior communicating artery, 421
  Direct thrombosis of experimental aneurysms with cellulose acetate polymer (CAP): technical aspects, angiographic follow up, and histological study, 531
  Early treatment of subarachnoid hemorrhage after preventing rerupture of an aneurysm, 34
  Elective surgery for asymptomatic, unruptured, intracranial aneurysms: a cost-effectiveness analysis, 403
  Familial aneurysmal subarachnoid hemorrhage: a community-based study, 426
  Histological findings in giant aneurysms treated with Guglielmi detachable coils. Report of two cases with autopsy correlation, 129
  Histologically verified cerebral aneurysm formation secondary to embolism from cardiac myxoma. Case report, 170
  Improved outcome after rupture of anterior circulation aneurysms: a retrospective 10-year review of 224 good-grade patients, 394
  Intracranial cysts in autosomal dominant polycystic kidney disease, 1004
  Late patency of long saphenous vein bypass grafts to the anterior and posterior cerebral circulation, 806
  Magnetic resonance detection of an aneurysm. Letters, 367, 568
  Neurosurgical management of cerebral aneurysms following unsuccessful or incomplete endovascular embolization, 843
  Preservation of the arteries around an aneurysm: practical use of oxycellulose. Technical note, 748
  Quantification of operative benefit for unruptured cerebral aneurysms: a theoretical approach, 413
  Reoperative management of intracranial aneurysms, 387
Aneurysm clip, *see* Clip
Aneurysm, dissecting
  Spontaneous carotid-jugular fistula and carotid dissection in a patient with multiple intracranial arachnoid cysts and hemifacial atrophy: a generalized connective tissue disorder? Case report, 546
Angiogenesis
  Synergistic effect of basic fibroblast growth factor and methylprednisolone on neurological function after experimental spinal cord injury, 105
  Vascular endothelial growth/permeability factor expression in human glioma specimens: correlation with vasogenic brain edema and tumor-associated cysts, 682
Angiography
  Diagnosis of vascular compression in facial spasm by stereoscopic short-range magnetic resonance angiography. Technical note, 561
  Histologically verified cerebral aneurysm formation secondary to embolism from cardiac myxoma. Case report, 170
Angioplasty
  Improved outcome after rupture of anterior circulation aneurysms: a retrospective 10-year review of 224 good-grade patients, 394
  Intracranial pressure changes induced during papaverine infusion for the treatment of vasospasm, 430
  Pathological effects of angioplasty on vasospastic carotid arteries in a rabbit model, 111
  Pharmacological and morphological effects of *in vitro* transluminal balloon angioplasty on normal and vasospastic canine basilar arteries, 522
Angiotensin
  Ischemic basis for neurogenic hypertension? Letter, 943
Anomalous vessel
  Accessory middle cerebral artery. Case report, 916
Anterior cerebral artery
  Aneurysm of a persistent primitive olfactory artery. Case report, 138
Anterior decompression
  Surgical approaches for the correction of unstable thoracolumbar burst fractures: a retrospective analysis of treatment outcomes, 977
Apert's syndrome
  Chronic tonsillar herniation in Crouzon's and Apert's syndromes: the role of the premature synostosis of the lambdoid suture, 575
Arachnoid cyst
  Gradual resolution of an arachnoid cyst after spontaneous rupture into the subdural space. Case report, 1085
  Intracranial cysts in autosomal dominant polycystic kidney disease, 1004
Arnold–Chiari malformation
  Negative-pressure hydrocephalus, 486
Arterial hypertension
  Ischemic basis for neurogenic hypertension? Letter, 943
Arterioles
  Anesthetic-dependent pial arteriolar response to ethanol, 875
Arteriovenous fistula
  Spontaneous carotid-jugular fistula and carotid dissection in a patient with multiple intracranial arachnoid cysts and hemifacial atrophy: a generalized connective tissue disorder? Case report, 546
Arteriovenous malformation
  Association of venous and true arteriovenous malformation: a rare entity among mixed vascular malformations of the brain. Case report, 141
  Classification of AVMs. Letters, 761, 762
  Genesis of a dural arteriovenous malformation in a rat model, 539
  Interim report on the radiosurgical treatment of cerebral arteriovenous malformations. The influence of size, dose, time, and technical factors on obliteration rate, 832
  Posterolateral cervical or thoracic approach with spinal cord rotation for vascular malformations or tumors of the ventrolateral spinal cord, 254
  Radiosurgery for AVMs: evaluating the risks and benefits. Letters, 381, 382

Artery, *see* specific arteries
Astroblastoma
Congenital astroblastoma: an immunohistochemical study. Case report, 550
Astrocytoma
Long-term outcome of hypothalamic/chiasmatic astrocytomas in children treated with conservative surgery, 583
Low-grade astrocytoma with neuraxis dissemination at diagnosis, 67
Performance of sulfhydryl boron hydride in patients with grade III and IV astrocytoma: a basis for boron neutron capture therapy, 79
Spinal cord astrocytoma: pathological and treatment considerations, 590
Stereotactic biopsy for nonpilocytic astrocytoma. Letters, 760
Use of fluorescence *in situ* hybridization to detect loss of chromosome 10 in astrocytomas, 316
Atlantoaxial instability
Cannulated screws for odontoid screw fixation and atlantoaxial transarticular screw fixation. Technical note, 1095
Atlantoaxial stabilization
Surgical management of atlantoaxial nonunions, 248
Aura
The anatomy of epileptic auras: focal pathology and surgical outcome, 60
Axis
Structural heterogeneity within the axis: the main cause in the etiology of dens fractures. A histomorphometric analysis of 37 normal and osteoporotic autopsy cases, 330
Axon
Magnetic resonance axonography of the rat spinal cord: postmortem effects, 1023

Baclofen
Catheter systems for intrathecal drug delivery, 215
Basilar artery
Effects of subarachnoid hemorrhage on vascular responses to calcitonin gene–related peptide and its related second messengers, 516
bcl-2
Expression of *bcl*-2 in reactive and neoplastic astrocytes: lack of correlation with presence or degree of malignancy, 1017
Bimakalim
Effects of potassium channel activators on isolated cerebral arteries of large and small diameter in the cat, 123
Birbeck granule
Huge Langerhans cell histiocytosis granuloma of choroid plexus in a child with Hand-Schüller-Christian disease. Case report, 1080
Birth injury
Fast spin–echo magnetic resonance imaging for radiological assessment of neonatal brachial plexus injury, 461
Blood flow, *see* Cerebral blood flow
Blood pressure
Cardiovascular response to blood loss during high intracranial pressure, 1067
Ischemic optic neuropathy following lumbar spine surgery. Case report, 348
Bobble–head doll syndrome
Bobble–head doll syndrome and drop attacks in a child with a cystic choroid plexus papilloma of the third ventricle. Case report, 729

Immunolocalization of cathepsin B in human glioma: implications for tumor invasion and angiogenesis, 285
Cauda equina
Symptomatic cerebellar metastasis and late local recurrence of a cauda equina paraganglioma. Case report, 166
Cavernous malformation
Cavernous malformation of the mammillary bodies: neuropsychological implications. Case report, 354
The natural history of cerebral cavernous malformations, 820
Natural history of intracranial cavernous malformations, 56
Reduction of hemorrhage risk after stereotactic radiosurgery for cavernous malformations, 825
Seizure outcome after lesionectomy for cavernous malformations, 237
Cavernous sinus
Evidence of meningioma infiltration into cranial nerves: clinical implications for cavernous sinus meningiomas, 596
Medial compartment of the cavernous sinus. Letters, 763, 764
Cellulose acetate polymer
Direct thrombosis of experimental aneurysms with cellulose acetate polymer (CAP): technical aspects, angiographic follow up, and histological study, 531
Early treatment of subarachnoid hemorrhage after preventing rerupture of an aneurysm, 34
Central nervous system tumor
The incidence of primary central nervous system neoplasms before and after computerized tomography availability, 999
Cerebral artery
Effects of potassium channel activators on isolated cerebral arteries of large and small diameter in the cat, 123
Cerebral blood flow
Attenuation of postischemic brain hypoperfusion and reperfusion injury by the cyclooxygenase-lipoxygenase inhibitor BW755C, 99
Focal cerebral hyperemia after focal head injury in humans: a benign phenomenon, 277
Cerebral edema, *see* Edema
Cerebral hyperperfusion
Imaging studies of cerebral hyperperfusion after carotid endarterectomy. Case report, 133
Cerebral ischemia, *see* Ischemia
Cerebral oxygenation
Near-infrared spectroscopy. Letters, 1111
Cerebral palsy
Relationship of intraoperative electrophysiological criteria to outcome after selective functional posterior rhizotomy, 18
Cerebral perfusion pressure
Cerebral perfusion pressure: management protocol and clinical results, 949
Hyperventilation and head injury. Letters, 1112, 1113, 1115
Use of indomethacin in brain-injured patients with cerebral perfusion pressure impairment: preliminary report, 627
Cerebral protection
Effect of intermittent reperfusion and nitric oxide synthase inhibition on infarct volume during reversible focal cerebral ischemia, 491
Cerebral vasospasm, *see* Vasospasm
Cerebrospinal fluid
Doxorubicin encapsulated in sterically stabilized liposomes for the treatment of a brain tumor model: biodistribution and therapeutic efficacy, 1029
Shunt obstruction and CSF edema. Letters, 1112
Cerebrospinal fluid fistula
Localization of inactive cerebrospinal fluid fistulas, 795
Cerebrospinal fluid shunt
Brainstem tethering in Dandy-Walker syndrome: a complication of cystoperitoneal shunting. Case report, 1072
Cervical fusion, *see* Spinal fusion
Cervical myelopathy
Cervical spondylotic myelopathy. Letters, 942, 943
Experimental chronic compressive cervical myelopathy: effects of decompression, 336
Cervical radiculopathy
Lower number and thinner myelin of large myelinated fibers in human cervical compression radiculopathy, 342
Cervical spine
Biomechanical analysis of bone mineral density, insertion technique, screw torque, and holding strength of anterior cervical plate screws, 324
Cervical spondylosis
Cervical spondylotic myelopathy. Letters, 942, 943
Experimental chronic compressive cervical myelopathy: effects of decompression, 336
Chemotherapy
Congenital astroblastoma: an immunohistochemical study. Case report, 550
Histologically verified cerebral aneurysm formation secondary to embolism from cardiac myxoma. Case report, 170
Management of intracranial plasmacytoma, 218
Primary diffuse leptomeningeal oligodendroglioma. Case report, 724
Chiari malformation
Acquired Chiari I malformation and syringomyelia associated with bilateral chronic subdural hematoma. Case report, 556
Chronic tonsillar herniation in Crouzon's and Apert's syndromes: the role of the premature synostosis of the lambdoid suture, 575
Children
Bobble–head doll syndrome and drop attacks in a child with a cystic choroid plexus papilloma of the third ventricle. Case report, 729
Controlled lumbar drainage in pediatric head injury, 453
Lymphoplasmacyte-rich meningioma in a child. Case report, 1075
Choristoma
Intracranial facial nerve rhabdomyoma. Case report, 919
Choroid plexus
Huge Langerhans cell histiocytosis granuloma of choroid plexus in a child with Hand-Schüller-Christian disease. Case report, 1080
Safe removal of retained ventricular catheters using intraluminal choroid plexus coagulation. Technical note, 1101
Choroid plexus papilloma
Bobble–head doll syndrome and drop attacks in a child with a cystic choroid plexus papilloma of the third ventricle. Case report, 729
Chromosome
A clinical and neuroradiological study of X-linked hydrocephalus in Japan, 50
Evidence for clonal spread in the development of multiple meningiomas, 705
Use of fluorescence *in situ* hybridization to detect loss of chromosome 10 in astrocytomas, 316
Claudication
Measurement of exercise tolerance on the treadmill in patients with symptomatic lumbar spinal stenosis: a useful indicator of functional status and surgical outcome, 27
Clip
Reoperative management of intracranial aneurysms, 387
Clip applier
Right-angle clip applier. Letters, 182
Clipping
Preservation of the arteries around an aneurysm: practical use of oxycellulose. Technical note, 748

Coil
Neurosurgical management of cerebral aneurysms following unsuccessful or incomplete endovascular embolization, 843
Collagen
Repair of critical size rat calvarial defects using extracellular matrix protein gels, 710
Computerized tomography
The incidence of primary central nervous system neoplasms before and after computerized tomography availability, 999
Cordotomy
Cordotomy and neurosurgical history. Letter, 764
Evidence for segregated pain and temperature conduction within the spinothalamic tract, 8
Correction
Correction: long-term outcome after removal of spinal neurofibroma, 186
Cortical stimulation
Functional magnetic resonance imaging of sensory and motor cortex: comparison with electrophysiological localization, 262
Cost-effectiveness analysis
Elective surgery for asymptomatic, unruptured, intracranial aneurysms: a cost-effectiveness analysis, 403
Cranial base
Frontal plagiocephaly secondary to synostosis of the frontosphenoidal suture. Case report, 733
Cranial fasciitis
Exclusively intracranial cranial fasciitis in a child. Case report, 744
Cranial nerve
The microsurgical anatomy of the jugular foramen, 903
Craniofacial surgery
Chronic tonsillar herniation in Crouzon's and Apert's syndromes: the role of the premature synostosis of the lambdoid suture, 575
Prognosis for mental function in scaphocephaly, 476
Craniopharyngioma
Papillary craniopharyngioma: a clinicopathological study of 48 cases, 206
Craniosynostosis
Chronic tonsillar herniation in Crouzon's and Apert's syndromes: the role of the premature synostosis of the lambdoid suture, 575
Frontal plagiocephaly secondary to synostosis of the frontosphenoidal suture. Case report, 733
Prognosis for mental function in scaphocephaly, 476
Craniotomy
Postoperative hematoma. Letters, 568, 569
Cromakalim
Effects of potassium channel activators on isolated cerebral arteries of large and small diameter in the cat, 123
Crouzon's syndrome
Chronic tonsillar herniation in Crouzon's and Apert's syndromes: the role of the premature synostosis of the lambdoid suture, 575
Cushing, Harvey
Case Western Reserve University and University Hospitals of Cleveland: a neurosurgical chronicle, 750
Cushing's disease
False-positive inferior petrosal sinus sampling in the diagnosis of Cushing's disease. Report of two cases, 1087
Cushing's syndrome
False-positive inferior petrosal sinus sampling in the diagnosis of Cushing's disease. Report of two cases, 1087
Cyanoacrylate
Reoperative management of intracranial aneurysms, 387
Cyclic adenosine monophosphate
Effects of subarachnoid hemorrhage on vascular responses to calcitonin gene–related peptide and its related second messengers, 516
Cyclic guanosine monophosphate
Effects of subarachnoid hemorrhage on vascular responses to calcitonin gene–related peptide and its related second messengers, 516
Cyst, *see* Arachnoid cyst

Dandy–Walker syndrome
Brainstem tethering in Dandy-Walker syndrome: a complication of cystoperitoneal shunting. Case report, 1072
Decompression
Anterolateral decompression of the atlantoaxial vertebral artery for symptomatic positional occlusion of the vertebral artery. Case report, 737
Detachable coil
Histological findings in giant aneurysms treated with Guglielmi detachable coils. Report of two cases with autopsy correlation, 129
Dexamethasone
Vascular endothelial growth/permeability factor expression in human glioma specimens: correlation with vasogenic brain edema and tumor-associated cysts, 682
Diabetes insipidus
Posterior pituitary hematoma in a case of posttraumatic diabetes insipidus. Case report, 368
Diathermy
Safe removal of retained ventricular catheters using intraluminal choroid plexus coagulation. Technical note, 1101
Diffuse idiopathic skeletal hyperostosis
Ossification of the anterior longitudinal ligament and Forestier's disease: an analysis of seven cases, 13
Disc herniation
Evaluation of varied surgical approaches used in the management of 170 far-lateral lumbar disc herniations: indications and results, 648
Discectomy
Long-term follow up of 57 patients undergoing automated percutaneous discectomy, 31
The transfacet pedicle-sparing approach for thoracic disc removal: cadaveric morphometric analysis and preliminary clinical experience, 971
Double-primary tumor
Metachronous ovarian dysgerminoma after a suprasellar germ-cell tumor treated by radiation therapy. Case report, 149
Doxorubicin
Doxorubicin encapsulated in sterically stabilized liposomes for the treatment of a brain tumor model: biodistributed and therapeutic efficacy, 1029
Drug delivery
Catheter systems for intrathecal drug delivery, 215
Dural substitute
A synthetic dural prosthesis constructed from hydroxyethylmethacrylate hydrogels, 897
Dysphagia
Ossification of the anterior longitudinal ligament and Forestier's disease: an analysis of seven cases, 13
Dysraphism
Cervical spinal dysraphism. Letter, 569
Terminal syringomyelia and anorectal anomalies. Letters, 185

Echocardiography
Electrocardiographic markers of abnormal left ventricular wall motion in acute subarachnoid hemorrhage, 889
Edema
Brain edema and neurological status with rapid infusion of lactated Ringer's or 5% dextrose solution following head trauma, 1060
Controlled lumbar drainage in pediatric head injury, 453
Current concepts of brain edema, 1051
Intracerebral infusion of thrombin as a cause of brain edema, 1045
Role of *N*-methyl-D-aspartate receptor in acute spinal cord injury, 884
Eicosanoid
Attenuation of postischemic brain hypoperfusion and reperfusion injury by the cyclooxygenase-lipoxygenase inhibitor BW755C, 99
Electrocardiography
Electrocardiographic markers of abnormal left ventricular wall motion in acute subarachnoid hemorrhage, 889
Embolization
Neurosurgical management of cerebral aneurysms following unsuccessful or incomplete endovascular embolization, 843
Treatment of carotid-cavernous sinus fistulas using a superior ophthalmic vein approach, 838
Embryology
Aneurysm of a persistent primitive olfactory artery. Case report, 138

Index

Endarterectomy
Long-term prognosis and effect of endarterectomy in patients with symptomatic severe carotid stenosis and contralateral carotid stenosis or occlusion: results from NASCET, 778
Mandibular subluxation as an adjunct to exposure of the distal internal carotid artery in endarterectomy surgery. Technical note, 926
Endothelial cell
Vascular endothelial growth/permeability factor expression in human glioma specimens: correlation with vasogenic brain edema and tumor-associated cysts, 682
Endothelium
Altered reactivity of human cerebral arteries after subarachnoid hemorrhage, 510
Endovascular therapy
Histological findings in giant aneurysms treated with Guglielmi detachable coils. Report of two cases with autopsy correlation, 129
Neurosurgical management of cerebral aneurysms following unsuccessful or incomplete endovascular embolization, 843
Epidemiology
The incidence of primary central nervous system neoplasms before and after computerized tomography availability, 999
Epidermal growth factor
Matrix metalloproteinases and tissue inhibitors of metalloproteinases in human gliomas, 298
Epidural hematoma
Early detection of delayed traumatic intracranial hematomas using near-infrared spectroscopy, 438
Spinal epidural hematoma following coronary thrombolysis with tissue plasminogen activator. Report of two cases, 350
Surgical management of spinal epidural hematoma: relationship between surgical timing and neurological outcome, 1
Epilepsy, *see also* Seizure
The anatomy of epileptic auras: focal pathology and surgical outcome, 60
Lesionectomy versus electrophysiologically guided resection for temporal lobe tumors manifesting with complex partial seizures, 231
A tribute to Dr. A. Earl Walker, 1103
Seizure outcome after lesionectomy for cavernous malformations, 237
Epilepsy surgery, *see* Lesionectomy
Ethanol
Anesthetic-dependent pial arteriolar response to ethanol, 875
Experimental model
Doxorubicin encapsulated in sterically stabilized liposomes for the treatment of a brain tumor model: biodistribution and therapeutic efficacy, 1029
Extracellular matrix
Repair of critical size rat calvarial defects using extracellular matrix protein gels, 710

Facial nerve
Proximal-to-distal facial amplitude ratios as predictors of facial nerve function after acoustic neuroma excision, 994
Facial nerve tumor
Intracranial facial nerve rhabdomyoma. Case report, 919
Facial pain
Electrical stimulation of the trigeminal nerve root for the treatment of chronic facial pain, 72
Femoral nerve
Surgical outcome for intra- and extrapelvic femoral nerve lesions, 783
Fibrinogen
Hydrocephalus associated with intramedullary low-grade gliomas. Illustrative cases and review of the literature, 480
Fibroblast growth factor
Inhibition by 5′-methylthioadenosine of cell growth and tyrosine kinase activity stimulated by fibroblast growth factor receptor in human gliomas, 690
Synergistic effect of basic fibroblast growth factor and methylprednisolone on neurological function after experimental spinal cord injury, 105
Fibromuscular dysplasia
Spontaneous carotid-jugular fistula and carotid dissection in a patient with multiple intracranial arachnoid cysts and hemifacial atrophy: a generalized connective tissue disorder? Case report, 546
Fiducial markers
A noninvasive, reattachable skull fiducial marker system. Technical note, 372
Fluid percussion injury
Loss of forebrain cholinergic neurons following fluid-percussion injury: implications for cognitive impairment in closed head injury, 496
Fluorescence *in situ* hybridization
Use of fluorescence *in situ* hybridization to detect loss of chromosome 10 in astrocytomas, 316
Forestier's disease
Ossification of the anterior longitudinal ligament and Forestier's disease: an analysis of seven cases, 13
Frameless stereotaxis
Clinical use of a frameless stereotactic arm: results of 325 cases, 197
A noninvasive, reattachable skull fiducial marker system. Technical note, 372
Functional localization
Functional magnetic resonance imaging of sensory and motor cortex: comparison with electrophysiological localization, 262

Galen, Claudius
Galen's anecdote of the fallen sophist: on the certainty of science through anatomy, 929
Gamma aminobutyric acid
Chronic postinjury administration of MDL 26,479 (Suritozole), a negative modulator at the $GABA_A$ receptor, and cognitive impairment in rats following traumatic brain injury, 878
Ganciclovir
A more potent bystander cytocidal effect elicited by tumor cells expressing the herpes simplex virus–thymidine kinase gene than by fibroblast virus–producer cells *in vitro*, 698
Gene
Expression of *bcl*-2 in reactive and neoplastic astrocytes: lack of correlation with presence or degree of malignancy, 1017
Gene therapy
A more potent bystander cytocidal effect elicited by tumor cells expressing the herpes simplex virus–thymidine kinase gene than by fibroblast virus–producer cells *in vitro*, 698
Prolonged survival of mice with glioma injected intracerebrally with double cytokine–secreting cells, 1038
Germ-cell tumor
Metachronous ovarian dysgerminoma after a suprasellar germ-cell tumor treated by radiation therapy. Case report, 149
Glibenclamide
Effects of potassium channel activators on isolated cerebral arteries of large and small diameter in the cat, 123
Glioblastoma multiforme
Growth and metastatic behavior of five human glioblastomas compared with nine other histological types of human tumor xenografts in SCID mice, 308
Glioma
Apoptosis of human glioma cells in response to calphostin C, a specific protein kinase C inhibitor, 1008
A comparative study on the pharmacokinetics and biodistribution of boronated porphyrin (BOPP) and sulfhydryl boron hydride (BSH) in the RG2 rat glioma model, 86
Detection of tumor necrosis factor-α protein and messenger RNA in human glial brain tumors: comparison of immunohistochemistry with *in situ* hybridization using molecular probes, 291
Expression of *bcl*-2 in reactive and neoplastic astrocytes: lack of correlation with presence or degree of malignancy, 1017
Hydrocephalus associated with intramedullary low-grade gliomas. Illustrative cases and review of the literature, 480
Immunolocalization of cathepsin B in human glioma: implications for tumor invasion and angiogenesis, 285
Inhibition by 5′-methylthioadenosine of cell growth and tyrosine kinase activity stimulated by fibroblast growth factor receptor in human gliomas, 690
Inhibition of proliferation and induction of differentiation in medulloblastoma- and astrocytoma-derived cell lines with phenylacetate, 672
Invading C6 glioma cells maintaining tumorigenicity, 665
Matrix metalloproteinases and tissue inhibitors of metalloproteinases in human gliomas, 298

Primary diffuse leptomeningeal oligodendroglioma. Case report, 724
Prolonged survival of mice with glioma injected intracerebrally with double cytokine–secreting cells, 1038
Radiation-induced gliosarcoma. Case report and review of the literature, 154
Gliosarcoma
Radiation-induced gliosarcoma. Case report and review of the literature, 154
Glucose metabolism
Decreased cerebral glucose metabolism in patients with brain tumors: an effect of corticosteroids, 657
Grading system
Impact of traumatic subarachnoid hemorrhage on outcome in nonpenetrating head injury. Part I: A proposed computerized tomography grading scale, 445
Reoperation for recurrent metastatic brain tumors, 600

Hand-Schüller-Christian disease
Huge Langerhans cell histiocytosis granuloma of choroid plexus in a child with Hand-Schüller-Christian disease. Case report, 1080
Harrington rod
Vertebral body reconstruction with a modified Harrington rod distraction system for stabilization of the spine affected with metastatic disease, 617
Head injury, *see also* Brain injury
Brain edema and neurological status with rapid infusion of lactated Ringer's or 5% dextrose solution following head trauma, 1060
Controlled lumbar drainage in pediatric head injury, 453
Early detection of delayed traumatic intracranial hematomas using near-infrared spectroscopy, 438
Early discovery of a traumatic carotid-cavernous sinus fistula by jugular venous oxygen saturation monitoring. Case report, 910
Impact of traumatic subarachnoid hemorrhage on outcome in nonpenetrating head injury. Part I: A proposed computerized tomography grading scale, 445
Near-infrared spectroscopy use in patients with head injury, 963
Outcome after head injury. Letters, 380
PEG-SOD after head injury. Letter, 942
Posterior pituitary hematoma in a case of posttraumatic diabetes insipidus. Case report, 368
Use of indomethacin in brain-injured patients with cerebral perfusion pressure impairment: preliminary report, 627
Hearing
Hearing preservation in vestibular schwannoma surgery: what factors influence outcome? 191
Hematoma, *see also* specific types
Early detection of delayed traumatic intracranial hematomas using near-infrared spectroscopy, 438
Postoperative hematoma. Letters, 568, 569
Hemin
Hemin activation of an inducible isoform of nitric oxide synthase in vascular smooth-muscle cells, 862
Hemorrhage
The natural history of cerebral cavernous malformations, 820
Natural history of intracranial cavernous malformations, 56
Reduction of hemorrhage risk after stereotactic radiosurgery for cavernous malformations, 825
Reoperative management of intracranial aneurysms, 387
Herniated disc, *see* Intervertebral disc herniation
Hetastarch
Hetastarch complication. Letter, 382
Hippocampal sclerosis
The anatomy of epileptic auras: focal pathology and surgical outcome, 60
Histiocytosis
Huge Langerhans cell histiocytosis granuloma of choroid plexus in a child with Hand-Schüller-Christian disease. Case report, 1080
Histiocytosis-X
Isolated intramedullary histiocytosis-X of the cervical spinal cord. Case report, 716

Historical vignette, *see* Neurosurgical history
History of medicine
Galen's anecdote of the fallen sophist: on the certainty of science through anatomy, 929
Hydrocephalus
A clinical and neuroradiological study of X-linked hydrocephalus in Japan, 50
Bobble–head doll syndrome and drop attacks in a child with a cystic choroid plexus papilloma of the third ventricle. Case report, 729
Hydrocephalus associated with intramedullary low-grade gliomas. Illustrative cases and review of the literature, 480
Negative-pressure hydrocephalus, 486
Safe removal of retained ventricular catheters using intraluminal choroid plexus coagulation. Technical note, 1101
Hydrogel
A synthetic dural prosthesis constructed from hydroxyethylmethacrylate hydrogels, 897
Hydroxyethylmethacrylate
A synthetic dural prosthesis constructed from hydroxyethylmethacrylate hydrogels, 897
Hyperemia
Focal cerebral hyperemia after focal head injury in humans: a benign phenomenon, 277
Hypertension, *see also* Intracranial pressure
Cerebral arterial aneurysm formation and rupture in 20,767 elderly patients: hypertension and other risk factors, 812
Controlled lumbar drainage in pediatric head injury, 453
Hyperventilation
Hyperventilation and head injury. Letters, 1112, 1113, 1115
Hypoglossal nerve
Hemihypoglossal–facial nerve anastomosis. Letters, 762, 763
Hyponatremia
Delayed hyponatremia after transsphenoidal surgery for pituitary adenoma. Report of nine cases, 363
Hypotension
Cardiovascular response to blood loss during high intracranial pressure, 1067
Hypothalamus
Long-term outcome of hypothalamic/chiasmatic astrocytomas in children treated with conservative surgery, 583
Hypothermia
Use of mild intraischemic hypothermia versus mannitol to reduce infarct size after temporary middle cerebral artery occlusion in rats, 93

Imaging studies
Imaging studies of cerebral hyperperfusion after carotid endarterectomy. Case report, 133
Immunohistochemistry
Congenital astroblastoma: an immunohistochemical study. Case report, 550
Detection of tumor necrosis factor-α protein and messenger RNA in human glial brain tumors: comparison of immunohistochemistry with *in situ* hybridization using molecular probes, 291
In situ hybridization
Detection of tumor necrosis factor-α protein and messenger RNA in human glial brain tumors: comparison of immunohistochemistry with *in situ* hybridization using molecular probes, 291
Indomethacin
Use of indomethacin in brain-injured patients with cerebral perfusion pressure impairment: preliminary report, 627
Infant
Fast spin-echo magnetic resonance imaging for radiological assessment of neonatal brachial plexus injury, 461
Infarction
Attenuation of postischemic brain hypoperfusion and reperfusion injury by the cyclooxygenase-lipoxygenase inhibitor BW755C, 99
Effect of intermittent reperfusion and nitric oxide synthase inhibition on infarct volume during reversible focal cerebral ischemia, 491
Focal cerebral hyperemia after focal head injury in humans: a benign phenomenon, 277
Inferior petrosal sinus
False-positive inferior petrosal sinus sampling in the diagnosis of Cushing's disease. Report of two cases, 1087

Index

Instrumentation
Biomechanical analysis of bone mineral density, insertion technique, screw torque, and holding strength of anterior cervical plate screws, 324
Right-angle clip applier. Letters, 182
Surgical approaches for the correction of unstable thoracolumbar burst fractures: a retrospective analysis of treatment outcomes, 977
Interleukin-2
Prolonged survival of mice with glioma injected intracerebrally with double cytokine–secreting cells, 1038
Intervertebral disc herniation
Lateral discs and nerve sheath tumors. Letters, 940
A posterolateral microsurgical approach to extreme-lateral lumbar disc herniation, 636
Long-term follow up of 57 patients undergoing automated percutaneous discectomy, 31
The transfacet pedicle-sparing approach for thoracic disc removal: cadaveric morphometric analysis and preliminary clinical experience, 971
Intracranial pressure, *see also* Hypertension
Cardiovascular response to blood loss during high intracranial pressure, 1067
Cerebral perfusion pressure: management protocol and clinical results, 949
Use of indomethacin in brain-injured patients with cerebral perfusion pressure impairment: preliminary report, 627
Intractable pain
Cortical stimulation for central pain. Letter, 1117
Intraoperative recordings
Surgical outcome for intra- and extrapelvic femoral nerve lesions, 783
Intrathecal drug infusion
Catheter systems for intrathecal drug delivery, 215
Ischemia
Attenuation of postischemic brain hypoperfusion and reperfusion injury by the cyclooxygenase-lipoxygenase inhibitor BW755C, 99
Effect of intermittent reperfusion and nitric oxide synthase inhibition on infarct volume during reversible focal cerebral ischemia, 491
Focal cerebral hyperemia after focal head injury in humans: a benign phenomenon, 277
Use of mild intraischemic hypothermia versus mannitol to reduce infarct size after temporary middle cerebral artery occlusion in rats, 93
Journal of Neurosurgery
A change in subscription fulfillment, 765

Jugular foramen
The microsurgical anatomy of the jugular foramen, 903
Jugular venous oxygen saturation
Early discovery of a traumatic carotid-cavernous sinus fistula by jugular venous oxygen saturation monitoring. Case report, 910

Ki-67
Expression of *bcl*-2 in reactive and neoplastic astrocytes: lack of correlation with presence or degree of malignancy, 1017

Laminectomy
Measurement of exercise tolerance on the treadmill in patients with symptomatic lumbar spinal stenosis: a useful indicator of functional status and surgical outcome, 27
Lesionectomy
Lesionectomy versus electrophysiologically guided resection for temporal lobe tumors manifesting with complex partial seizures, 231
Seizure outcome after lesionectomy for cavernous malformations, 237
Leukemia
Radiation-induced gliosarcoma. Case report and review of the literature, 154
Liposome
Doxorubicin encapsulated in sterically stabilized liposomes for the treatment of a brain tumor model: biodistribution and therapeutic efficacy, 1029
Lumbar disc, *see* Intervertebral disc herniation
Lumbar drain
Controlled lumbar drainage in pediatric head injury, 453
Lumbar spine
Ischemic optic neuropathy following lumbar spine surgery. Case report, 348

Magnetic resonance imaging
Demonstration of neurovascular compression in trigeminal neuralgia with magnetic resonance imaging. Comparison with surgical findings in 52 consecutive operative cases, 799
Diagnosis of vascular compression in facial spasm by stereoscopic short-range magnetic resonance angiography. Technical note, 561
Fast spin–echo magnetic resonance imaging for radiological assessment of neonatal brachial plexus injury, 461
Functional magnetic resonance imaging of sensory and motor cortex: comparison with electrophysiological localization, 262
Functional MR and PET imaging of rolandic and visual cortices for neurosurgical planning, 854
Intraoperative ultrasound-directed resection of pituitary tumors, 225
Localization of inactive cerebrospinal fluid fistulas, 795
Magnetic resonance axonography of the rat spinal cord: postmortem effects, 1023
Magnetic resonance detection of an aneurysm. Letters, 367, 568
Magnetic resonance image–directed stereotactic neurosurgery: use of image fusion with computerized tomography to enhance spatial accuracy, 271
Magnetic resonance imaging of a glioblastoma of the optic chiasm. Case report, 923
Posterior pituitary hematoma in a case of posttraumatic diabetes insipidus. Case report, 368
Mammillary body
Cavernous malformation of the mammillary bodies: neuropsychological implications. Case report, 354
Mandibular subluxation
Mandibular subluxation as an adjunct to exposure of the distal internal carotid artery in endarterectomy surgery. Technical note, 926
Mannitol
Use of mild intraischemic hypothermia versus mannitol to reduce infarct size after temporary middle cerebral artery occlusion in rats, 93
MDL 26,479
Chronic postinjury administration of MDL 26,479 (Suritozole), a negative modulator at the $GABA_A$ receptor, and cognitive impairment in rats following traumatic brain injury, 878
Medical economics
Elective surgery for asymptomatic, unruptured, intracranial aneurysms: a cost-effectiveness analysis, 403
Medulloblastoma
Inhibition of proliferation and induction of differentiation in medulloblastoma- and astrocytoma-derived cell lines with phenylacetate, 672
Melanoma
Melanotic neuroectodermal tumor of infancy: a molecular approach to diagnosis. Case report, 145
Meningeal tumor
Aggressive meningeal tumors. Letters, 379
Exclusively intracranial cranial fasciitis in a child. Case report, 744
Primary diffuse leptomeningeal oligodendroglioma. Case report, 724
Meninges
Primary diffuse leptomeningeal oligodendroglioma. Case report, 724
Meningioma
Aggressive meningeal tumors. Letters, 379
Evidence for clonal spread in the development of multiple meningiomas, 705
Evidence of meningioma infiltration into cranial nerves: clinical implications for cavernous sinus meningiomas, 596
Lymphoplasmacyte-rich meningioma in a child. Case report, 1075
The natural history and growth rate of asymptomatic meningiomas: a review of 60 patients, 222
Primary intraosseous meningioma. Case report, 912
Metastasis
Histologically verified cerebral aneurysm formation secondary to embolism from cardiac myxoma. Case report, 170

Metachronous ovarian dysgerminoma after a suprasellar germ-cell tumor treated by radiation therapy. Case report, 149
Reoperation for recurrent metastatic brain tumors, 600
Survival after surgical treatment of brain metastases from lung cancer: a follow-up study of 231 patients treated between 1976 and 1991, 605
Symptomatic cerebellar metastasis and late local recurrence of a cauda equina paraganglioma. Case report, 166
Vertebral body reconstruction with a modified Harrington rod distraction system for stabilization of the spine affected with metastatic disease, 617
Methylprednisolone
Synergistic effect of basic fibroblast growth factor and methylprednisolone on neurological function after experimental spinal cord injury, 105
5′-Methylthioadenosine
Inhibition by 5′-methylthioadenosine of cell growth and tyrosine kinase activity stimulated by fibroblast growth factor receptor in human gliomas, 690
Microvascular decompression
Demonstration of neurovascular compression in trigeminal neuralgia with magnetic resonance imaging. Comparison with surgical findings in 52 consecutive operative cases, 799
Diagnosis of vascular compression in facial spasm by stereoscopic short-range magnetic resonance angiography. Technical note, 561
Microvascular decompression for trigeminal neuralgia. Letters, 183, 184
Middle cerebral artery
Accessory middle cerebral artery. Case report, 916
Middle fossa
Gradual resolution of an arachnoid cyst after spontaneous rupture into the subdural space. Case report, 1085
Molecular genetics
Detection of tumor necrosis factor-α protein and messenger RNA in human glial brain tumors: comparison of immunohistochemistry with *in situ* hybridization using molecular probes, 291
Use of fluorescence *in situ* hybridization to detect loss of chromosome 10 in astrocytomas, 316
Morphological study
Lower number and thinner myelin of large myelinated fibers in human cervical compression radiculopathy, 342
Papillary craniopharyngioma: a clinicopathological study of 48 cases, 206
Motor cortex
Cortical stimulation for central pain. Letter, 1117
Mutism
The pathophysiology of oral pharyngeal apraxia and mutism following posterior fossa tumor resection in children, 467
Myeloma
Management of intracranial plasmacytoma, 218
Myelomeningocele
Negative-pressure hydrocephalus, 486
Myocardial dysfunction
Electrocardiographic markers of abnormal left ventricular wall motion in acute subarachnoid hemorrhage, 889
Spinal epidural hematoma following coronary thrombolysis with tissue plasminogen activator. Report of two cases, 350
Myxoma
Histologically verified cerebral aneurysm formation secondary to embolism from cardiac myxoma. Case report, 170

Natural history
The natural history and growth rate of asymptomatic meningiomas: a review of 60 patients, 222
Natural history of intracranial cavernous malformations, 56
Near-infrared spectroscopy
Near-infrared spectroscopy. Letters, 1111
Near-infrared spectroscopy use in patients with head injury, 963
Nerve, *see* specific nerves
Nerve action potential
Surgical outcome for intra- and extrapelvic femoral nerve lesions, 783
Nerve repair
Hemihypoglossal–facial nerve anastomosis. Letters, 762, 763
Surgical outcome for intra- and extrapelvic femoral nerve lesions, 783
Nerve root
Galen's anecdote of the fallen sophist: on the certainty of science through anatomy, 929
Nerve sheath
Lateral discs and nerve sheath tumors. Letters, 940
Neuraxis
Low-grade astrocytoma with neuraxis dissemination at diagnosis, 67
Neuroectodermal tumor
Melanotic neuroectodermal tumor of infancy: a molecular approach to diagnosis. Case report, 145
Neurosurgical history
Case Western Reserve University and University Hospitals of Cleveland: a neurosurgical chronicle, 750
Cordotomy and neurosurgical history. Letter, 764
Crossroads at Salerno: Eldridge Campbell and the writings of Teodorico Borgognoni on wound healing, 174
Luigi Rolando and his pioneering efforts to relate structure to function in the nervous system, 933
A tribute to Dr. A. Earl Walker, 1103
Nitric oxide
Effect of intermittent reperfusion and nitric oxide synthase inhibition on infarct volume during reversible focal cerebral ischemia, 491
Effect of intracarotid nitric oxide on primate cerebral vasospasm after subarachnoid hemorrhage, 118
Hemin activation of an inducible isoform of nitric oxide synthase in vascular smooth-muscle cells, 862
N-methyl-D-aspartate
Role of *N*-methyl-D-aspartate receptor in acute spinal cord injury, 884

Odontoid fractures
Cannulated screws for odontoid screw fixation and atlantoaxial transarticular screw fixation. Technical note, 1095
Odontoid process
Structural heterogeneity within the axis: the main cause in the etiology of dens fractures. A histomorphometric analysis of 37 normal and osteoporotic autopsy cases, 330
Olfactory artery
Aneurysm of a persistent primitive olfactory artery. Case report, 138
Oligodendroglioma
Primary diffuse leptomeningeal oligodendroglioma. Case report, 724
Operative technique, *see also* Surgical approach
Application of frameless stereotaxy to pedicle screw fixation of the spine, 641
En bloc petrosectomy using a Gigli saw for petroclival lesions. Technical note, 559
Mandibular subluxation as an adjunct to exposure of the distal internal carotid artery in endarterectomy surgery. Technical note, 926
Optic chiasm
Long-term outcome of hypothalamic/chiasmatic astrocytomas in children treated with conservative surgery, 583
Optic glioma
Magnetic resonance imaging of a glioblastoma of the optic chiasm. Case report, 923
Optic neuropathy
Ischemic optic neuropathy following lumbar spine surgery. Case report, 348
Ossification
Ossification of the anterior longitudinal ligament and Forestier's disease: an analysis of seven cases, 13
Osteomyelitis
Spinal tuberculosis: a diagnostic and management challenge, 243
Outcome
Brain edema and neurological status with rapid infusion of lactated Ringer's or 5% dextrose solution following head trauma, 1060
CART for prediction of function after head trauma. Letters, 941
Impact of traumatic subarachnoid hemorrhage on outcome in nonpenetrating head injury. Part I: A proposed computerized tomography grading scale, 445
Improved outcome after rupture of anterior circulation aneurysms: a retrospective 10-year review of 224 good-grade patients, 394
Long-term outcome after removal of spinal schwannoma: a clinicopathological study of 187 cases, 621

Index

Long-term outcome of hypothalamic/chiasmatic astrocytomas in children treated with conservative surgery, 583
Outcome after head injury. Letters, 380
Surgical management of spinal epidural hematoma: relationship between surgical timing and neurological outcome, 1
Outcome prediction
CART for prediction of function after head trauma. Letters, 941

Pain
Evidence for segregated pain and temperature conduction within the spinothalamic tract, 8
Functional thalamic depression in a case of reversible central pain due to a spinal intramedullary cyst. Case report, 163
Papaverine
Intracranial pressure changes induced during papaverine infusion for the treatment of vasospasm, 430
Severe thrombocytopenia following intraarterial papaverine administration for the treatment of vasospasm, 435
Paraganglioma
Symptomatic cerebellar metastasis and late local recurrence of a cauda equina paraganglioma. Case report, 166
Pedicle
Application of frameless stereotaxy to pedicle screw fixation of the spine, 641
Perforating artery
Preservation of the arteries around an aneurysm: practical use of oxycellulose. Technical note, 748
Pharmacokinetics
Doxorubicin encapsulated in sterically stabilized liposomes for the treatment of a brain tumor model: biodistribution and therapeutic efficacy, 1029
Phenylacetate
Inhibition of proliferation and induction of differentiation in medulloblastoma- and astrocytoma-derived cell lines with phenylacetate, 672
Pilocytic astrocytoma
Spinal cord astrocytoma: pathological and treatment considerations, 590
Pituitary adenoma
Acromegaly, diabetes insipidus, and visual loss caused by metastatic growth hormone-releasing hormone-producing malignant pancreatic endocrine tumor in the pituitary gland. Case report, 719
Delayed hyponatremia after transsphenoidal surgery for pituitary adenoma. Report of nine cases, 363
Ectopic pituitary adenoma occurring in the interpeduncular cistern. Case report, 1092
Pituitary gland
Posterior pituitary hematoma in a case of posttraumatic diabetes insipidus. Case report, 368
Pituitary tumor
Intraoperative ultrasound-directed resection of pituitary tumors, 225
Medial compartment of the cavernous sinus. Letters, 763, 764
Plasmacytoma
Management of intracranial plasmacytoma, 218
Polycystic kidney disease
Intracranial cysts in autosomal dominant polycystic kidney disease, 1004
Polyethylene glycol–superoxide dismutase
PEG-SOD after head injury. Letter, 942
Polymer
A synthetic dural prosthesis constructed from hydroxyethylmethacrylate hydrogels, 897
Positron emission tomography
Decreased cerebral glucose metabolism in patients with brain tumors: an effect of corticosteroids, 657
Functional MR and PET imaging of rolandic and visual cortices for neurosurgical planning, 854
Posterior communicating artery
Clinical study of enlarged infundibular dilations of the origin of the posterior communicating artery, 421
Posterior fossa tumor
The pathophysiology of oral pharyngeal apraxia and mutism following posterior fossa tumor resection in children, 467
Potassium
Effects of potassium channel activators on isolated cerebral arteries of large and small diameter in the cat, 123
Presidential address
Responding to change: the challenge of the 1990s. The 1995 presidential address, 771
Prognosis
Long-term prognosis and effect of endarterectomy in patients with symptomatic severe carotid stenosis and contralateral carotid stenosis or occlusion: results from NASCET, 778
Papillary craniopharyngioma: a clinicopathological study of 48 cases, 206
Protein
Inhibition by 5′-methylthioadenosine of cell growth and tyrosine kinase activity stimulated by fibroblast growth factor receptor in human gliomas, 690
Radiation-induced tumor
Radiation-induced gliosarcoma. Case report and review of the literature, 154

Radiation therapy
Management of intracranial plasmacytoma, 218
Spinal cord astrocytoma: pathological and treatment considerations, 590
Stereotactic biopsy for nonpilocytic astrocytoma. Letters, 759, 760
Radiosurgery
Interim report on the radiosurgical treatment of cerebral arteriovenous malformations. The influence of size, dose, time, and technical factors on obliteration rate, 832
Magnetic resonance image–directed stereotactic neurosurgery: use of image fusion with computerized tomography to enhance spatial accuracy, 271
Radiosurgery for AVMs: evaluating the risks and benefits. Letters, 381, 382
Reduction of hemorrhage risk after stereotactic radiosurgery for cavernous malformations, 825
Reperfusion
Effect of intermittent reperfusion and nitric oxide synthase inhibition on infarct volume during reversible focal cerebral ischemia, 491
Retrolabyrinthine approach
En bloc petrosectomy using a Gigli saw for petroclival lesions. Technical note, 559
Revascularization
Late patency of long saphenous vein bypass grafts to the anterior and posterior cerebral circulation, 806
Rhabdomyoma
Intracranial facial nerve rhabdomyoma. Case report, 919
Rheumatoid arthritis
Posterior cervical spine fusion with tension-band wiring, 631
Rhinorrhea
Localization of inactive cerebrospinal fluid fistulas, 795
Rhizotomy
A prospective 15-year follow up of 154 consecutive patients with trigeminal neuralgia treated by percutaneous stereotactic radiofrequency thermal rhizotomy, 989
Relationship of intraoperative electrophysiological criteria to outcome after selective functional posterior rhizotomy, 18
Rolando, Luigi
Luigi Rolando and his pioneering efforts to relate structure to function in the nervous system, 933
Rolandic cortex
Functional MR and PET imaging of rolandic and visual cortices for neurosurgical planning, 854

Saphenous vein graft
Late patency of long saphenous vein bypass grafts to the anterior and posterior cerebral circulation, 806
Scaphocephaly
Prognosis for mental function in scaphocephaly, 476
Schwannoma
Hearing preservation in vestibular schwannoma surgery: what factors influence outcome? 191
Long-term outcome after removal of spinal schwannoma: a clinicopathological study of 187 cases, 621

Sciatica
Long-term follow up of 57 patients undergoing automated percutaneous discectomy, 31
Screening
Current implications for the efficacy of noninvasive screening for occult intracranial aneurysms in patients with a family history of aneurysms, 42
Screw fixation
Cannulated screws for odontoid screw fixation and atlantoaxial transarticular screw fixation. Technical note, 1095
Seizure, *see also* Epilepsy
The natural history of cerebral cavernous malformations, 820
Seizure outcome after lesionectomy for cavernous malformations, 237
Sensorimotor cortex
Functional magnetic resonance imaging of sensory and motor cortex: comparison with electrophysiological localization, 262
Shock
Cardiovascular response to blood loss during high intracranial pressure, 1067
Shunt, *see also* specific types
Atrial shunt placement. Letters, 567
Shunt obstruction and CSF edema. Letters, 1112
Single-photon emission computerized tomography
Functional thalamic depression in a case of reversible central pain due to a spinal intramedullary cyst. Case report, 163
Sinus thrombosis
Genesis of a dural arteriovenous malformation in a rat model, 539
Skull
Primary intraosseous meningioma. Case report, 912
Skull base
Evidence of meningioma infiltration into cranial nerves: clinical implications for cavernous sinus meningiomas, 596
Somatosensory evoked potentials
Experimental chronic compressive cervical myelopathy: effects of decompression, 336
Functional magnetic resonance imaging of sensory and motor cortex: comparison with electrophysiological localization, 262
Spasticity
Relationship of intraoperative electrophysiological criteria to outcome after selective functional posterior rhizotomy, 18
Spinal arteriovenous fistula
Compliments to NIH. Letters, 184, 185
Spinal blood flow
Experimental chronic compressive cervical myelopathy: effects of decompression, 336
Spinal cord
Cervical spinal dysraphism. Letter, 569
Isolated intramedullary histiocytosis-X of the cervical spinal cord. Case report, 716
Magnetic resonance axonography of the rat spinal cord: postmortem effects, 1023
Posterolateral cervical or thoracic approach with spinal cord rotation for vascular malformations or tumors of the ventrolateral spinal cord, 254
Spinal cord compression
Experimental chronic compressive cervical myelopathy: effects of decompression, 336
Surgical management of spinal epidural hematoma: relationship between surgical timing and neurological outcome, 1
Spinal cord injury
Role of *N*-methyl-D-aspartate receptor in acute spinal cord injury, 884
Synergistic effect of basic fibroblast growth factor and methylprednisolone on neurological function after experimental spinal cord injury, 105
Spinal cord neoplasm
Hydrocephalus associated with intramedullary low-grade gliomas. Illustrative cases and review of the literature, 480
Spinal cord astrocytoma: pathological and treatment considerations, 590
Spinal cyst
Functional thalamic depression in a case of reversible central pain due to a spinal intramedullary cyst. Case report, 163
Spinal epidural hematoma
Surgical management of spinal epidural hematoma: relationship between surgical timing and neurological outcome, 1
Spinal fusion
Failure of a titanium anterior cervical plate implant: microstructural analysis of failure. Case report, 741
Posterior cervical spine fusion with tension-band wiring, 631
Spinal implants
Failure of a titanium anterior cervical plate implant: microstructural analysis of failure. Case report, 741
Spinal instrumentation
Cannulated screws for odontoid screw fixation and atlantoaxial transarticular screw fixation. Technical note, 1095
Failure of a titanium anterior cervical plate implant: microstructural analysis of failure. Case report, 741
Spinal neoplasm
Long-term outcome after removal of spinal schwannoma: a clinicopathological study of 187 cases, 621
Symptomatic cerebellar metastasis and late local recurrence of a cauda equina paraganglioma. Case report, 166
Spinal nerve root avulsion
Fast spin-echo magnetic resonance imaging for radiological assessment of neonatal brachial plexus injury, 461
Spinal stabilization
Vertebral body reconstruction with a modified Harrington rod distraction system for stabilization of the spine affected with metastatic disease, 617
Spine
Application of frameless stereotaxy to pedicle screw fixation of the spine, 641
Spinal epidural hematoma following coronary thrombolysis with tissue plasminogen activator. Report of two cases, 350
Spinothalamic tract
Evidence for segregated pain and temperature conduction within the spinothalamic tract, 8
Spondylosis, *see* Cervical spondylosis
Spontaneous cyst rupture
Gradual resolution of an arachnoid cyst after spontaneous rupture into the subdural space. Case report, 1085
Stenosis
Long-term prognosis and effect of endarterectomy in patients with symptomatic severe carotid stenosis and contralateral carotid stenosis or occlusion: results from NASCET, 778
Measurement of exercise tolerance on the treadmill in patients with symptomatic lumbar spinal stenosis: a useful indicator of functional status and surgical outcome, 27
Stereotaxis
Application of frameless stereotaxy to pedicle screw fixation of the spine, 641
Clinical use of a frameless stereotactic arm: results of 325 cases, 197
Magnetic resonance image–directed stereotactic neurosurgery: use of image fusion with computerized tomography to enhance spatial accuracy, 271
Stereotactic biopsy for nonpilocytic astrocytoma. Letters, 759, 760
A tribute to Dr. A. Earl Walker, 1103
Stimulation
Electrical stimulation of the trigeminal nerve root for the treatment of chronic facial pain, 72
Stress testing
Measurement of exercise tolerance on the treadmill in patients with symptomatic lumbar spinal stenosis: a useful indicator of functional status and surgical outcome, 27
Subarachnoid hemorrhage
Age-related multifactorial causes of neurological deterioration after early surgery for aneurysmal subarachnoid hemorrhage, 984
Altered reactivity of human cerebral arteries after subarachnoid hemorrhage, 510
Cerebral arterial aneurysm formation and rupture in 20,767 elderly patients: hypertension and other risk factors, 812
Current implications for the efficacy of noninvasive screening for occult intracranial aneurysms in patients with a family history of aneurysms, 42
Electrocardiographic markers of abnormal left ventricular wall motion in acute subarachnoid hemorrhage, 889
Familial aneurysmal subarachnoid hemorrhage: a community-based study, 426

Index

Functional changes in cultured strips of canine cerebral arteries after prolonged exposure to oxyhemoglobin, 867
Impact of traumatic subarachnoid hemorrhage on outcome in nonpenetrating head injury. Part I: A proposed computerized tomography grading scale, 445
Improved outcome after rupture of anterior circulation aneurysms: a retrospective 10-year review of 224 good-grade patients, 394
Intracranial pressure changes induced during papaverine infusion for the treatment of vasospasm, 430
Pathological effects of angioplasty on vasospastic carotid arteries in a rabbit model, 111
Pharmacological and morphological effects of *in vitro* transluminal balloon angioplasty on normal and vasospastic canine basilar arteries, 522
Prospective, randomized, double-blind trial of BQ-123 and bosentan for prevention of vasospasm following subarachnoid hemorrhage in monkeys, 503
Seasonal rupture of aneurysms. Letters, 182, 183
Severe thrombocytopenia following intraarterial papaverine administration for the treatment of vasospasm, 435

Subdural hematoma
Acquired Chiari I malformation and syringomyelia associated with bilateral chronic subdural hematoma. Case report, 556
Early detection of delayed traumatic intracranial hematomas using near-infrared spectroscopy, 438
Focal cerebral hyperemia after focal head injury in humans: a benign phenomenon, 277

Subdural space
Gradual resolution of an arachnoid cyst after spontaneous rupture into the subdural space. Case report, 1085

Superior jugular bulb
The microsurgical anatomy of the jugular foramen, 903

Superior ophthalmic vein
Treatment of carotid-cavernous sinus fistulas using a superior ophthalmic vein approach, 838

Sural graft
Surgical outcome for intra- and extrapelvic femoral nerve lesions, 783

Surgical approach, *see also* Operative technique
Evaluation of varied surgical approaches used in the management of 170 far-lateral lumbar disc herniations: indications and results, 648
Posterolateral cervical or thoracic approach with spinal cord rotation for vascular malformations or tumors of the ventrolateral spinal cord, 254
Surgical management of atlantoaxial nonunions, 248

Synostosis, *see* Craniosynostosis

Syringomyelia
Acquired Chiari I malformation and syringomyelia associated with bilateral chronic subdural hematoma. Case report, 556
Terminal syringomyelia and anorectal anomalies. Letters, 185

Thalamus
A tribute to Dr. A. Earl Walker, 1103

Thermanesthesia
Evidence for segregated pain and temperature conduction within the spinothalamic tract, 8

Thermocoagulation
A prospective 15-year follow up of 154 consecutive patients with trigeminal neuralgia treated by percutaneous stereotactic radiofrequency thermal rhizotomy, 989

Third ventricular tumor
Bobble–head doll syndrome and drop attacks in a child with a cystic choroid plexus papilloma of the third ventricle. Case report, 729

Thoracic spine
The transfacet pedicle-sparing approach for thoracic disc removal: cadaveric morphometric analysis and preliminary clinical experience, 971

Thrombin
Intracerebral infusion of thrombin as a cause of brain edema, 1045

Thrombocytopenia
Severe thrombocytopenia following intraarterial papaverine administration for the treatment of vasospasm, 435

Thrombosis
Direct thrombosis of experimental aneurysms with cellulose acetate polymer (CAP): technical aspects, angiographic follow up, and histological study, 531

Thymidine kinase
A more potent bystander cytocidal effect elicited by tumor cells expressing the herpes simplex virus–thymidine kinase gene than by fibroblast virus–producer cells *in vitro*, 698

Tissue plasminogen activator
Early treatment of subarachnoid hemorrhage after preventing rerupture of an aneurysm, 34
Spinal epidural hematoma following coronary thrombolysis with tissue plasminogen activator. Report of two cases, 350

Tonsillar herniation
Acquired Chiari I malformation and syringomyelia associated with bilateral chronic subdural hematoma. Case report, 556

Transluminal balloon angioplasty
Pharmacological and morphological effects of *in vitro* transluminal balloon angioplasty on normal and vasospastic canine basilar arteries, 522

Transsphenoidal surgery
Delayed hyponatremia after transsphenoidal surgery for pituitary adenoma. Report of nine cases, 363
Intraoperative ultrasound-directed resection of pituitary tumors, 225

Transtentorial approach
En bloc petrosectomy using a Gigli saw for petroclival lesions. Technical note, 559

Trigeminal nerve
Electrical stimulation of the trigeminal nerve root for the treatment of chronic facial pain, 72

Trigeminal neuralgia
Demonstration of neurovascular compression in trigeminal neuralgia with magnetic resonance imaging. Comparison with surgical findings in 52 consecutive operative cases, 799
Microvascular decompression for trigeminal neuralgia. Letters, 183, 184
A prospective 15-year follow up of 154 consecutive patients with trigeminal neuralgia treated by percutaneous stereotactic radiofrequency thermal rhizotomy, 989

Tuberculoma
Paradoxical progression of tuberculous lesions during chemotherapy of central nervous system tuberculosis. Report of four cases, 359

Tuberculosis
Paradoxical progression of tuberculous lesions during chemotherapy of central nervous system tuberculosis. Report of four cases, 359
Spinal tuberculosis: a diagnostic and management challenge, 243

Tuberculous spondylitis
Spinal tuberculosis: a diagnostic and management challenge, 243

Tumor, *see also* specific tumors and locations

Tumor cell dissemination
Low-grade astrocytoma with neuraxis dissemination at diagnosis, 67
En bloc petrosectomy using a Gigli saw for petroclival lesions. Technical note, 559
Lesionectomy versus electrophysiologically guided resection for temporal lobe tumors manifesting with complex partial seizures, 231
Survival after surgical treatment of brain metastases from lung cancer: a follow-up study of 231 patients treated between 1976 and 1991, 605

Tumor necrosis factor-α
Detection of tumor necrosis factor-α protein and messenger RNA in human glial brain tumors: comparison of immunohistochemistry with *in situ* hybridization using molecular probes, 291
Matrix metalloproteinases and tissue inhibitors of metalloproteinases in human gliomas, 298

Tumor recurrence
Evidence of meningioma infiltration into cranial nerves: clinical implications for cavernous sinus meningiomas, 596

Ultrasound
Intraoperative ultrasound-directed resection of pituitary tumors, 225

University Hospitals of Cleveland
Case Western Reserve University and University Hospitals of Cleveland: a neurosurgical chronicle, 750

Unruptured aneurysm
Current implications for the efficacy of noninvasive screening for occult intracranial aneurysms in patients with a family history of aneurysms, 42

Vascular endothelial growth factor
Vascular endothelial growth/permeability factor expression in human glioma specimens: correlation with vasogenic brain edema and tumor-associated cysts, 682
Vascular permeability factor
Vascular endothelial growth/permeability factor expression in human glioma specimens: correlation with vasogenic brain edema and tumor-associated cysts, 682
Vasoconstriction
Altered reactivity of human cerebral arteries after subarachnoid hemorrhage, 510
Vasodilation
Altered reactivity of human cerebral arteries after subarachnoid hemorrhage, 510
Vasogenic edema
Current concepts of brain edema, 1051
Vascular endothelial growth/permeability factor expression in human glioma specimens: correlation with vasogenic brain edema and tumor-associated cysts, 682
Vasospasm
Age-related multifactorial causes of neurological deterioration after early surgery for aneurysmal subarachnoid hemorrhage, 984
Altered reactivity of human cerebral arteries after subarachnoid hemorrhage, 510
Early treatment of subarachnoid hemorrhage after preventing rerupture of an aneurysm, 34
Effect of intracarotid nitric oxide on primate cerebral vasospasm after subarachnoid hemorrhage, 118
Effects of subarachnoid hemorrhage on vascular responses to calcitonin gene-related peptide and its related second messengers, 516
Functional changes in cultured strips of canine cerebral arteries after prolonged exposure to oxyhemoglobin, 867
Hemin activation of an inducible isoform of nitric oxide synthase in vascular smooth-muscle cells, 862
Intracranial pressure changes induced during papaverine infusion for the treatment of vasospasm, 430
Pathological effects of angioplasty on vasospastic carotid arteries in a rabbit model, 111
Pharmacological and morphological effects of *in vitro* transluminal balloon angioplasty on normal and vasospastic canine basilar arteries, 522
Prospective, randomized, double-blind trial of BQ-123 and bosentan for prevention of vasospasm following subarachnoid hemorrhage in monkeys, 503
Severe thrombocytopenia following intraarterial papaverine administration for the treatment of vasospasm, 435
Venous hypertension
Genesis of a dural arteriovenous malformation in a rat model, 539
Ventricular drainage
Prolonged external ventricular drainage with percutaneous long-tunnel ventriculostomies, 791
Ventriculoatrial shunt
Atrial shunt placement. Letters, 567
Ventriculoperitoneal shunt
Safe removal of retained ventricular catheters using intraluminal choroid plexus coagulation. Technical note, 1101
Ventriculostomy
Prolonged external ventricular drainage with percutaneous long-tunnel ventriculostomies, 791
Vermis
A clinical and neuroradiological study of X-linked hydrocephalus in Japan, 50
Vertebral artery
Anterolateral decompression of the atlantoaxial vertebral artery for symptomatic positional occlusion of the vertebral artery. Case report, 737
Vertebral artery compression. Letters, 759
Vertebral body
Vertebral body reconstruction with a modified Harrington rod distraction system for stabilization of the spine affected with metastatic disease, 617
Vertebrobasilar insufficiency
Anterolateral decompression of the atlantoaxial vertebral artery for symptomatic positional occlusion of the vertebral artery. Case report, 737
Vertebral artery compression. Letters, 759
Visual cortex
Functional MR and PET imaging of rolandic and visual cortices for neurosurgical planning, 854

Walker, A. Earl
A tribute to Dr. A. Earl Walker, 1103
Wound
Crossroads at Salerno: Eldridge Campbell and the writings of Teodorico Borgognoni on wound healing, 174
